

LEGACY[®] ACOUSTICAL SHELL

With the Legacy[®] acoustical shell, setting up great acoustics is easier than ever.

Creating acoustical shells that meet your needs is part of Wenger's legacy. The Legacy acoustical shell continues to set the standards for ease of setup, acoustical effectiveness and flexibility.

In its storage position, Legacy shells move through standard doorways and will roll around your facility with ease. To set it up, all it takes is one person and six rotations of a handle. The large canopy locks into one of four different angles. This provides adjustable acoustics, which benefits all types of performances from choral to instrumental. Considering the acoustical performance, ease of use, aesthetics, Wenger customer service and the five year warranty, Legacy acoustical shells are a great value.

LEGACY[®] ACOUSTICAL SHELL

Legacy acoustical shells are designed to work perfectly with Wenger Seated Risers and Wenger Standing Choral Risers. Wenger makes it possible to set up your concerts anywhere from center stage in the auditorium to the gymnasium or cafeteria.

Compact Storage

The base of one Legacy Shell will tuck into another for compact, nested storage. Legacy is designed to make the most out of limited storage areas.

Simple, safe one-person setup.

After reviewing the setup diagram posted on the back of the shell, one person can easily set up the Legacy shell. The first step is to lower the kick panel.

Then, with the canopy lock activated, use the canopy tool to raise the canopy to the desired angle.

Rotate the turn-handle clockwise to raise the tower. The panels can also be left in a partially raised position if your setup benefits from a lower shell.

Legacy[®] Shell Sets.

Legacy can be used in a variety of configurations to accommodate any size performing group. Besides the popular sets shown here, a Wenger representative can help you find the perfect set for your ensembles.

Legacy Band/Orchestra Sets	Legacy Choral Sets
<p>16 Units Group Size: 100-110</p>	<p>7 Units Group Size: 84-112 42'-wide</p>
<p>13 Units Group Size: 85-96</p>	<p>6 Units Group Size: 72-96 36'-wide</p>
<p>12 Units Group Size: 60-75</p>	<p>5 Units Group Size: 60-80 30'-wide</p>
	<p>4 Units Group Size: 48-64 24'-wide</p>
	<p>3 Units Group Size: 36-48 18'-wide</p>

LEGACY[®] ACOUSTICAL SHELL SPECIFICATIONS:

- Promotes excellent ensemble and enhances acoustical projection toward the audience.
- Large canopy and lower kicker panel assist in providing a large acoustical coverage area.
- Lifting mechanism requires no bending and only six turns of the handle.
- Adjustable canopy can be set at one of four positions (45°, 60°, 75° or 90°) with almost infinite adjustment.
- Counterweight design allows a clean and attractive front and the ability to move in front of the shell without any trip hazards.
- Shell can be placed in a partial upright position to accommodate the height of almost any facility.
- Shells are equipped with a partial upright position lock (use is optional) to help deter tampering.
- Composite panel consists of honeycomb core, hardboard skin and an aluminum panel frame similar to the panel construction of Wenger's Diva[®] full-stage acoustical shell.
- Rounded corner pieces provide added safety by eliminating sharp corners.
- Oyster surface color.
- Units nest for compact storage.
- Casters allow for stable rolling and easy positioning.
- With the tower at full height, the canopy can be raised to give each tower a height from 13'11" to 15'2" (4.24m to 4.62m).
