

ISS Brackets

	Item Number	Name	Description
	BR-004	4" ISS Bracket	<p>The ISS Brackets are made with extruded aluminum in a clear anodized finish. The size of the shelf determines which bracket size to use. The actual bracket length is shorter than the shelf size by 3/4" to provide the look of the ISS Bracket when facing forward. Also a 12" ISS bracket with a 12" deep shelf will not touch the wall when rear facing on a pole mounted application. Therefore, the usable length of a 12" bracket is 11 1/4".</p>
	BR-006	6" ISS Bracket	
	BR-008	8" ISS Bracket	
	BR-010	10" ISS Bracket	
	BR-012	12" ISS Bracket	
	BR-014	14" ISS Bracket	
	BR-016	16" ISS Bracket	
	HD-012	12" ISS Heavy Duty Bracket	<p>ISS Heavy Duty brackets provide additional bracket strength for heavier weight loads on shelves. The same style as the standard ISS Bracket with an extra 3/4" depth provides the extra load bearing capacity.</p>
	HD-014	14" ISS Heavy Duty Bracket	
	HD-016	16" ISS Heavy Duty Bracket	
	HD-018	18" ISS Heavy Duty Bracket	
	HD-020	20" ISS Heavy Duty Bracket	
	HD-024	24" ISS Heavy Duty Bracket	
	FB-009	9" Fusion Bracket (for 9"-11")	<p>The design of the Fusion Bracket is simple - wide base angled up to narrow tip with "T" on top. Fusion brackets can be inserted at any point along the ISS poles or standards by using the twist and lock motion. The top 1" edge provides the space for two shelves to share a bracket and to use screws to secure the shelf to the bracket.</p>
	FB-012	12" Fusion Bracket (for 12"-14")	
	SB-012	12" Support Bracket	<p>The ISS Support Brackets provide additional support when needed under the shelf or work surface. The ISS hang Bar fits in the notch of the brackets and is located directly under the shelf. Shelf connectors may be added to secure the shelf to the brackets.</p>
	HB-012	Hang Bar Bracket with	<p>Mount Hang Bar Brackets on ISS poles and use together with hang bar for clothes hangers.</p>
	HB-016	16" Hang Bar Bracket	
	HB-XXX	Custom Hang Bar Bracket	
	HA-XXX	Hang Bar
