

SPECIFICATIONS

Polyurethane Acoustical Underlayment

Thickness:	0.085" offering acoustical properties similar to 3/4" cork
Acoustical:	70IIC, 73STC – excellent sound absorption
Water Resistance:	51 cm AATC Hydrostatic Pressure Test
Density:	20 lbs./cubic ft.
Durability:	5% Compression Set, ASTM 3574
Roll Size:	3 ft. x 33.34 ft. – 100 sq. ft.
Roll Weight:	16 lbs.
Fire Rating:	DOC-FF-1-70, passes N.B.S. smoke density ASTM E-622-95, 1.10 max, passes
Pallet:	50 rolls (5,000 sq. ft.)
Pallet Weight:	900 lbs.
Pallet Truckload:	48 pallets/240,000 sq. ft.

- Quick and easy installation — Requires no special transition pieces like cork, cuts with a knife
- Contains **Ultra-Fresh™** anti-microbial protection, which resists mold and mildew
- Smooths out minor subfloor irregularities
- Non-allergenic and odorless
- 100% recyclable, environmentally friendly
- Unmatched track record: Hundreds of millions of square feet installed, 0 claims

THE INDUSTRY'S BEST PRODUCT & WARRANTY

The Silencer's™ warranty not only covers our own product, but also extends to all brands of laminate and wood floors.

Should any manufacturer of these types of flooring neglect to take responsibility for their own floor's warranty because you choose to use **The Silencer™**, we will honor their original warranty.

Foam Products Corp. warrants that **The Silencer™** will conform to the published product specifications, subject to manufacturing tolerances, will be merchantable for the ordinary purposes for which such goods are used and will be free of defects in material and workmanship at the time of shipment.

FPC further warrants that it will replace FPC's defective products and will reimburse purchaser the original purchase price of any excessively abraded wood flooring area under which FPC's product was originally installed for any excessive abrasion resulting solely from a defect in FPC's **The Silencer™** that caused a substandard performance to any valid warranty of the wood flooring manufacturer.

This commercial warranty gives the purchaser specific legal rights and the purchaser may also have other rights, which vary from state to state.

This commercial warranty will be effective only if **The Silencer™** underlayment is installed and maintained in full compliance with the wood flooring manufacturer's instructions, recommendations and specifications.

FPC does not assume any liability for faulty installation or lack of maintenance or improper maintenance. This warranty is non-transferable.

The Silencer™ HD

- Is quiet — shhh!
- Contains **Ultra-Fresh™** anti-microbial which resists mold and mildew
- Environmentally friendly
- 100% recyclable
- Is versatile: Suitable for all glue, float or nail down installation
- Suitable for use with radiant heat flooring systems
- Has over 2 million satisfied customers
- Hundreds of millions of square feet installed with **ZERO claims**
- Supported by the industry's **BEST LIMITED LIFETIME WARRANTY**

There is no other like it.

The Silencer™ HD

While other products perform adequately for the short term, these products fail to deaden noise as they collapse (permanently) over time.

Once an underlayment collapses, the floor will sag or buckle permanently, shortening the life span of the floor. Once this failure occurs, an underlayment will also no longer be as effective in deadening the sound.

The **Silencer™** features Crushpruf™ technology. Crushpruf™ technology is the Silencer's unique patented construction that enables it to support the floor against weight and traffic while silencing your floor for its lifetime.

The Silencer™ (left) even resists indentation from a car's weight, while a competing underlayment (right) may crush permanently, which can cause the floor to sag or buckle.

Unlike other underlayments, The Silencer™ is patented, unique and guaranteed not to fail or collapse.

Ultra-Fresh™ is a registered trademark of Thomson Research Associates, Inc.

The Silencer™ HD is recommended for all multi story homes, condos, apartments, mid & high rise buildings to reduce sound transmission and impact noise between floors.

Use only the best, **Silencer™ HD** underlayment for noise reduction.

Inferior Underlayments

- Provides less noise absorption
- Does not provide long-term support for your floor
- Are low performance
- Cost more in the long run
- Are not guaranteed for life

Don't waste your money on an inferior product that will have to be replaced soon.
