

ecoeffects[®]

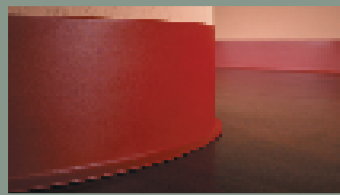

FRIENDLY FLOORING PRODUCTS

*At Roppe, we've consciously
chosen to be part of the solution.*

That means we're not just committed to making better products – we're dedicated to making a positive impact on the environment as well. Our "green" products meet high environmental standards and can contribute to the U.S. Green Building Council's LEED[®] Green Building Certification System. From tiles and treads to wall base and adhesives, our Ecoeffects[®] products meet high environmental standards without compromising color selection, performance, durability or style.

ecoeffects®

FRIENDLY FLOORING PRODUCTS

pinnacle

RUBBER BASE

No matter what the project, PVC free Roppe Pinnacle rubber base is ideal for the job. Pinnacle is the professional's choice because this 100% type TS vulcanized rubber base is highly durable and extremely flexible, allowing for easy installation around columns, corners and architectural curves. Contains 10% natural rubber, a renewable resource. May contribute to LEED® CI and NC credits MR 5.1, MR 5.2, MR 6

alphabase®

When the project calls for signage combined with a durable SBR base, Roppe has the answer in AlphaBase wall base products. Ideal for safety applications where clearly marked signage is a necessity. Contains 10% natural rubber, a renewable resource. May contribute to LEED® CI and NC credits MR 5.1, MR 5.2, MR 6

basemates®

STACKABLE TRIM MOLDING SYSTEM

Sculpted wall base designs are so popular in today's high-end projects. And now there's a new option for designers and installers on tighter budgets. With the patent-pending Roppe BaseMates stackable trim molding system, you can transform ordinary wall base into something special – by adding a custom look at a minimal cost. Contains 10% natural rubber a renewable resource. May contribute to LEED® CI and NC credits MR 5.1, MR 5.2, MR 6

pinnacle plus

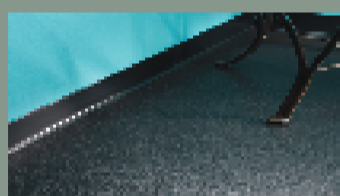

WALL BASE

The architectural lines of Pinnacle Plus wall base reveal Roppe's keen attention to detail. Formulated with all of the same features and benefits that make Pinnacle rubber base the professional's choice, Pinnacle Plus base gives the industry unique profiles and new options in design. Contains 10% natural rubber a renewable resource. May contribute to LEED® CI and NC credits MR 5.1, MR 5.2, MR 6

corners

The dreaded corner – it's often viewed as the most difficult, costly and time-intensive element of any wall base installation. To resolve this issue, we've developed rubber corner blocks. These 100% PVC free, vulcanized and extruded corner blocks alleviate costly hand-scribing, wasted time and extra skilled craftsmen from the corner-forming process. These rubber corners also add durability because they are less likely to get damaged or detached during everyday use and maintenance of the interior space. Contains 10% natural rubber a renewable resource. May contribute to LEED® CI and NC credits MR 5.1, MR 5.2, MR 6

700 series

BASE

Roppe's unique blend of thermoplastic rubber and vinyl makes the 700 Series an attractive and economical choice for a variety of applications. With its moderate pricing, our 700 Series wall base is an outstanding selection for any installation. Contains 10% pre-consumer waste. May contribute to LEED® CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2

vinyl base

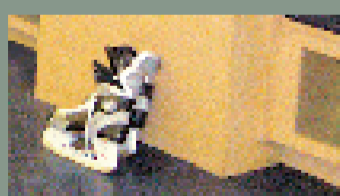

Strong and durable, Roppe's Type TV thermoplastic vinyl wall base will not fade, crack or chip. In fact, it's made with a co-extruded top layer that resists scuffs and scratches. Inexpensive because it's made from PVC vinyl, Roppe vinyl base is available in a wide variety of colors and sizes all at a Single Price Point. Contains 10% pre-consumer waste. May contribute to LEED® CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2

rubber

SMOOTH/MARBLEIZED | RAISED DESIGN
DIMENSIONS | DESIGNER'S CHOICE®

Roppe rubber tile is available in a smooth surface or 10 great profiles that combine functionality and good looks. It's naturally slip resistant and provides outstanding under foot comfort and noise reduction. Better yet, it's easy to install and maintain. Plus, it's PVC free. Contains 10% natural rubber, a renewable resource. May contribute to LEED® CI and NC credits MR 5.1, MR 5.2, MR 6

spike/skate

RESISTANT TILE

Use it anywhere damage from skates, spikes or cleats is a concern. Its strength and durability make it perfect for ice arenas, locker room entrances and exits, and players' walkways to sports fields and ballparks. Contains 10% natural rubber, a renewable resource. May contribute to LEED® CI and NC credits MR 5.1, MR 5.2, MR 6

safeTcork®

SLIP RESISTANT RUBBER TILE AND TREAD

The specially formulated blend of rubber and cork in our SafeTcork Slip Resistant Rubber Tile & Tread teams safety with a unique aesthetic appeal. The natural slip resistance of cork – a renewable resource – makes it an ideal choice for education settings, churches, assisted living facilities and multipurpose rooms. Contains 10% pre-consumer waste cork and 10% natural rubber, renewable resources. May contribute to LEED® CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2, MR 6

safeTcork® fiesta®

SLIP RESISTANT RUBBER TILE AND TREAD

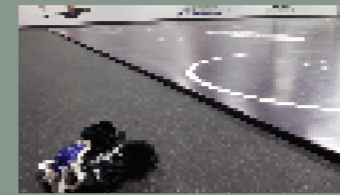

Now you can get SafeTcork performance in festive Fiesta colors. So, whether you choose solid colors or something specked and more sensational, SafeTcork is the perfect choice for terminals, malls, schools, stores, recreational facilities, elevators, lobbies, ramps and more. Contains 10% post-industrial waste; 10% pre-consumer waste cork and 10% natural rubber, renewable resources. May contribute to LEED® CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2, MR 6

fiesta®

RUBBER TILE AND TREAD

A favorite of designers, Fiesta is not only long-lasting, it's also great looking and an excellent choice for custom projects. Fiesta colors coordinate with other Roppe products and can be mixed and matched with tile, treads, wall base and accessories. Let your imagination be your guide with beautiful, versatile and unique Fiesta products. Contains 10% post-industrial waste and 10% natural rubber, a renewable resource. May contribute to LEED® CI and NC credits MR 5.1, MR 5.2, MR 6

recoil

FITNESS FLOORING

Multi-functional rubber flooring designed for use in residential, commercial or industrial applications where added comfort under foot is needed. Roppe Recoil tiles can be used on indoor or outdoor applications where enhanced walking comfort and slip resistance is desired. Contains post-industrial and post-consumer waste. May contribute to LEED® CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2

tuflex®

RECYCLED RUBBER FLOORING

Tuflex Rubber Flooring tiles for sports and commercial applications have been proven in the industry since 1957. Tuflex tiles are manufactured with a patented vulcanization process using predominantly recycled rubber. Contains post-industrial and post-consumer waste. May contribute to LEED CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2

rop-cord®

RUBBER TILE

Versatility and functionality are inherent throughout our line of Rop-Cord flooring. Tough and durable as well as environmentally friendly, it can be used indoors or outdoors. Rop-Cord's built-in anti-slip feature makes it practical for a variety of areas, including damp or wet spaces. So, it's an ideal flooring for ramps, walk-off mats, concourses and foyers – anywhere moisture might pose a hazard to pedestrians. Contains 90% post-consumer waste. May contribute to LEED CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2

wood naturals™

SOLID VINYL TILE

When it comes to the natural look of real wood, nothing tops our North Coast Collection® of Wood Naturals™. Roppe's industry-leading wear layer ensures the floor will maintain its original beauty – to stand the test of time. Contains 10% post-industrial waste. May contribute to LEED CI and NC credits MR 5.1, MR 5.2

safeTcork®

VINYL TILE

SafeTcork solid vinyl tile is durable, versatile and easy to maintain, and comes with the natural slip resistance of cork, now with Options! Choose from any of the standard 12 colors on a white background - in any combination of 1, 2 or 3 chip colors - and create your own tile – what else could be better than limitless options? Contains 10% pre-consumer waste cork, a renewable resource. May contribute to LEED CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2, MR 6

esd

STATIC CONTROL VINYL FLOORING

ESD Static Control vinyl flooring is ideal for clean rooms and computer rooms, for fiber optic, electronic and pharmaceutical manufacturing, and anywhere protection from static discharge is needed. Combination of conductive tile and proper conductive footwear keeps body voltage less than 8 volts. Contains 2% soybean oil a renewable resource. May contribute to LEED CI and NC credits MR 5.1, MR 5.2, MR 6

tread

RAISED DESIGN RUBBER TREADS | SPECIALITY RUBBER TREADS

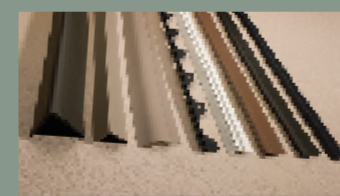

Our line of PVC free rubber stair treads is the perfect complement to any flooring project. From shopping malls, retail settings, government centers, hospitals and airports. Most styles offer ADA nose-compliant features. Better yet, they coordinate with our other tile designs and colors. Contains 10% natural rubber a renewable resource. May contribute to LEED CI and NC credits MR 5.1, MR 5.2, MR 6

tread

VINYL TREAD

Our new vinyl stair tread designs combine the best of two worlds – affordability and durability – and without sacrificing the good looks and quality you've come to expect from Roppe products. With many colors and heavy and light duty designer styles to pick from, you'll find the perfect complement for your stair tread project. Contains 2% soybean oil, a renewable resource, and 10% pre-consumer waste. May contribute to LEED CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2, MR 6

vinyl

ACCESSORIES

Roppe's broad range of accessories includes nosings, reducers, fillets and tub moldings, cove caps, adapters, transitions, tracks and corner guards. Flexible and durable, with color that extends throughout the product thickness, Roppe high-quality vinyl accessories help installations go smoothly from start to finish. Contains 10% pre-consumer waste. May contribute to LEED CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2

subfloor

LEVELER

Roppe designed its line of subfloor leveling products with you in mind. Comprised of a unique thermoplastic rubber compound, they're flexible and easy to work with, yet strong and durable. Unlike the others, we have a range of thicknesses available, pre-scored for easy on-site trimming. Better yet, our 12" and longer 18" lengths give you extra options when it comes to installation because there's no piecing together required. Contains 100% pre-consumer waste. May contribute to LEED CI and NC credits MR 4.1, MR 4.2, MR 5.1, MR 5.2

adhesives

Choosing the right adhesives can make the difference in the appearance, performance and longevity of your floor. So, always make Roppe your choice to ensure long-lasting and dependable service. No matter what the application, we have an adhesive right for the job, each specially formulated to be used with Roppe flooring products. In fact, our adhesives must be used for Roppe warranties to apply. Roppe adhesives meet SCAQMD emissions standards. May contribute to LEED CI and NC credits EQ 4.1
