The Hirsch family

Security Metal Products Corp. is a national leader in building standard and custom hollow metal doors and frames. SMPC has also pioneered major technological advances in acoustical doors.

Chairman and CEO, Michael Hirsch, is a third-generation door manufacturer. As President, his son James Hirsch leads the organization in the 21st century. The Hirsch family tradition goes back to 1914. Michael Hirsch purchased SMPC in 1981, and within a decade the company became the leading West Coast supplier of standard and custom hollow metal doors and frames.

With a combined 130,000 square feet in manufacturing facilities throughout North America, the Security team is dedicated to providing customers with quality products at an affordable price.
