

Design meets durability.

PPG FLOORING SYSTEMS

MegaSeal® Flooring Systems

PPG **MegaSeal** is a versatile flooring program complete with technical expertise and sales support from PPG, an innovative leader in the protective and high performance coatings industry for over 100 years.

To determine the **MegaSeal** Flooring System that's right for you, call 1-888-PPG-IDEA, or visit our Web site at www.ppgmegaseal.com.

MegaSeal Self-Leveling Epoxy Flooring

Available in every color in the rainbow, thanks to our patented technology that allows for tinting of our self-leveling seamless hygienic floors. This opens up an array of design opportunities for retail and commercial as well as industrial applications.

PPG Anti-Slip Systems

Ideal for environments where prevention of slips and falls are required. Many grades are available—from one-component, pedestrian grades, which offer moderate chemical resistance to—low-VOC, heavy service grades able to withstand heavy vehicle traffic and impact.

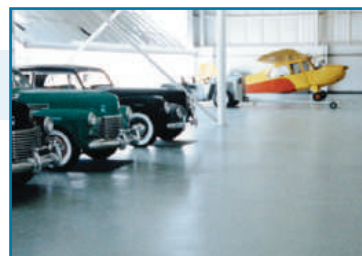

MegaSeal Primers, patching products and thin-film systems are also available.

Color Visualization

See Megaseal Color Options on Your Floor Before You Paint

PPG **Visions at Glance™** software can help you experiment with colors before painting a floor. This easy to use software allows you to save a photo of your floor on your computer and choose from thousands of potential colors from the PPG **PerformaColor®** System or **Pittsburgh®** Paints **Voice of Color®** Design Collection.

EcoLogical Building Solutions

PPG Glass, Coatings and Paint for Sustainable Design

Environmental sustainability is the most powerful trend to influence the design and specification of buildings in a generation.

PPG has developed **EcoLogical Building Solutions**, an exclusive collection of select products designed to help architects and specifiers construct “greener” buildings.

PPG is committed to more than making environmentally progressive products. We actively pursue company-wide initiatives that support regional sourcing, reduce the environmental impact of our packaging, make our

products easier to recycle or dispose, encourage the use of alternative energy and cut overall greenhouse gas and VOC emissions.

If your goal is to earn LEED certification for your project, or simply to reduce your building's overall operating costs and environmental impact, **EcoLogical Building Solutions** has the glass, coatings and paint products you need, all from a proven, innovative company you can trust.

To learn more, or to order our **EcoLogical Building Solutions** brochure or LEED White Paper, call **1.888.774.4332** or visit www.ppgideascales.com.
