

BERRIDGE

MANUFACTURING COMPANY

FREEDOM OF FORM IN ARCHITECTURAL METAL SYSTEMS

**Roofs • Facades • Soffits • Mansards
Walls • Ceilings • Equipment Screens • Restoration**

**Berridge exclusive on-site fabrication
technology provides:**

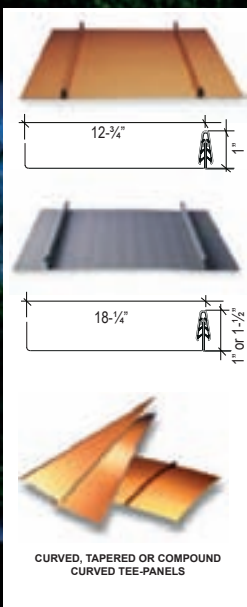

**Custom Contoured Panels
Curved Barrel Vault Panels
Tapered Panels
Compound Curved Panels
Long Length Panels**

**For Technical or
Design Assistance call:

Standing Seam Roof Systems

Berridge Standing Seam Roof Systems range from narrow seam panels for high pitch solid sheathing applications to structural mechanically seamed systems capable of spanning open framing. All feature patented Berridge vinyl weatherseal and may be site-formed with Berridge portable roll formers to continuous lengths.

Tee-Panel & High Seam Tee-Panel

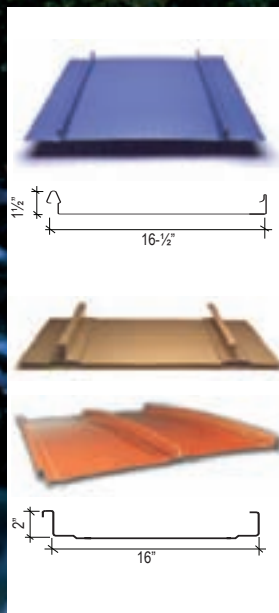

For solid sheathing applications; commercial or residential.

- Concealed fasteners
- Snap-on seam cap w/patented vinyl weatherseal
- UL90 & ASTM Air & Water tested.

Curved, Compound Curved or Tapered Tee-Panel

Concave or convex, curved or compound curved corners & domed roofs.

- Snap-on seam cap w/patented vinyl weatherseal
- UL90 & ASTM Air & Water tested.

Cee-Lock

Snap-lock standing seam roof; Spans over open framing or solid substrate.

- Easy-to-install, integral snap-lock seam
- Optional patented vinyl weatherseal
- May be site formed for continuous length panels
- UL90 & ASTM E-1592, Air & Water tested.

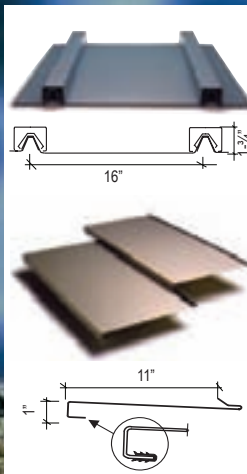

Zee-Lock

Architectural/Structural standing seam roof system for use over open purlin framing (max. 5'-0") or solid substrate.

- Mechanically seamed sidelap
- May be site formed for continuous length panels
- May be curved to 20' min. radius
- UL90 & ASTM E-1592, Air & Water tested.
- FM 1-120 rated (double-lock seam)
- Corps of Engineers CEGS 07416 approved.

A Wide Selection of Other Roof Systems

Berridge is unsurpassed in its selection of prefinished metal batten seam, Bermuda, simulated tile, shake and other roofing systems. All are fabricated from strong 24-gauge galvanized or Galvalume steel and prefinished with full-strength Kynar 500® or Hylar 5000™ color finishes.

Batten Seam System

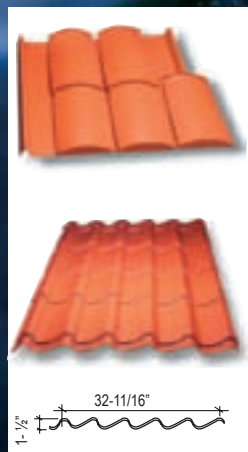

Deep Vee structural panel with snap-on batten for open framing or solid sheathing.

- Concealed Fasteners
- UL90 tested

Bermuda Roof System

Traditional Bermuda roof design continuous-length panels for roof, fascia or mansards

- Optional patented vinyl weatherseal.
- May be site formed for continuous lengths

Spanish Tile

Prefinished metal barrel tiles over structural Deep-Vee panels.

- Stronger, lighter than clay tiles
- May be installed over open framing

S-Tile

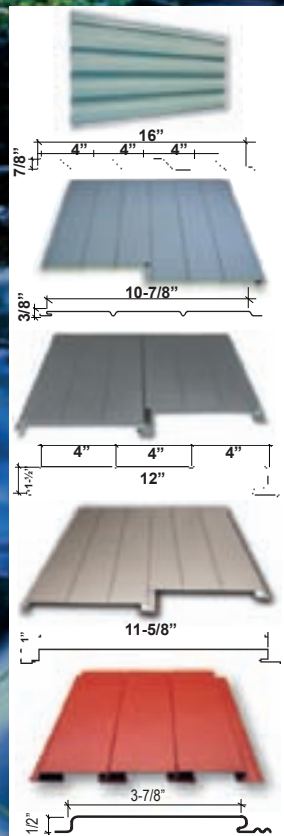

Prefinished metal s-tile panels with a clean, crisp simulated tile appearance.

- Continuous-lengths up to 40'
- Only 1.2 lb/square foot

Fascia, Wall & Soffit Systems

Berridge offers prefinished metal panels to fit every soffit, facade, siding, liner, equipment screen or ceiling application.

HR-16 Panel

Horizontal or vertical wall applications.

- Open framing or solid substrate
- 16" coverage

Vee-Panel

Soffit, wall & facade system.

- Open framing or solid substrate
- May be vented

FW-12 Panel

Wall, liner or soffit panels.

- Available with or without grooves
- Open framing or solid substrate
- May be vented

L - Panel

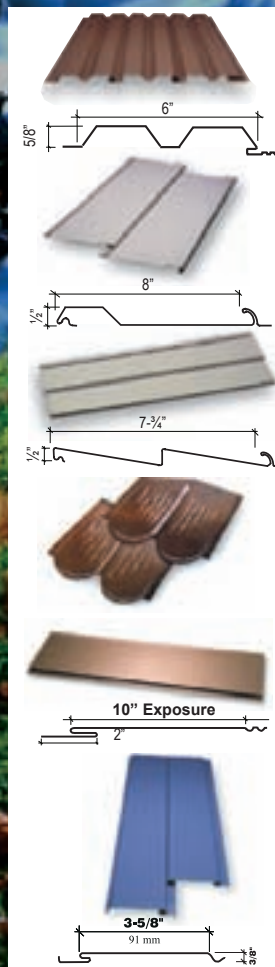

Facade, liner or soffit panels.

- Available with or without grooves
- Hidden Fasteners, Flush appearance

Flush Seam Panel

Soffit and facade system with "rigid embossed texture" for uniform reflectivity. For open spans to provide flat appearance.

- Open framing or solid substrate
- Flat appearance

B-6 Panel

Soffit and facade system for open spans.

- Spans 4'-0" - 5'-0"
- Vee-groove appearance

Board & Batt Panel

Board and batt siding in 24 ga. prefinished steel.

- 8" batten spacing
- Strong interlock sidelap.

Colonial Siding

Authentic clapboard siding appearance in strong 24-ga. steel.

- Strong interlock
- Fireproof, Class A rated

Fish Scale

Historical product for gable, sidewall, vertical mansard or fascia

- Authentic fish scale texture
- for solid sheathing

Fluted Fascia Panel

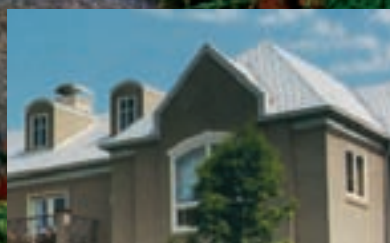

Flat seam panel for vertical walls, fascia or mansards.

- Vee-groove fluting
- Solid substrate

Thin-Line Panel

Flat seam panel for vertical walls, fascia or mansards.

- Flat, monolithic appearance

Rustic Shake Shingles

Prefinished 24-ga shake texture shingles for residential or commercial construction.

- Four-way interlock
- Class A fire rating

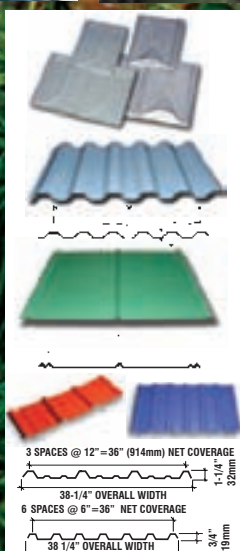

Curved Flat Seam Panel

Prefinished flat seam metal panel system with concealed fasteners for applications over curved surfaces on solid sheathing.

Curved & Straight "S" Deck

Corrugated metal panel

- May be curved to 5' min. radius
- Wall or roof applications

Classic or Victorian Shingles

Prefinished Kynar 500®, Hylar 5000™, Satin Finish Galvalume or galvanized shingle

Deep Deck Panel

Roof, deck, wall, equipment screen, soffit

- 36" coverage
- 24 or 22 ga.

Double-Rib (5V) Roof Panel

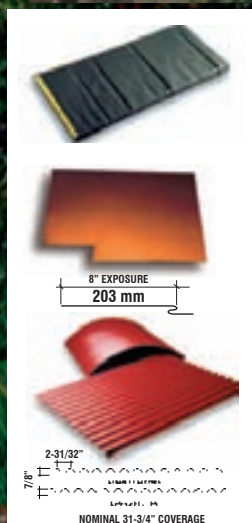

Traditional 5V crimp appearance roof panel.

- 24" coverage
- Strong 24 ga. material

"M" or "R" Panels

Roof, wall, soffit, fascia, mansard, liner or equipment screen panel.

- Wide, 3'-0" coverage
- Spans over open purlins
- "R" Panel is UL90 rated

Coil & Flat Sheet Products from Berridge's Continuous Coil Coating Line

Berridge owns and operates its own continuous coil coating paint line to provide fast, responsive service on a wide array of long-life Kynar 500® or Hylar 5000™ pre-slit coil for portable roll-forming or flat sheet for custom trim and flashing fabrication. All material is 24-gauge G-90 or Galvalume®.

Berridge Manufactures its own line of Precision-Tolerance Portable Roll-Formers

Complete Testing & Warranty Support

Berridge supports both its site-formed and factory-fabricated roof and wall products with appropriate UL-90, FM, Corps of Engineers CECS 07416 and ASTM Air & Water Infiltration testing to meet all specifications. For specialized testing, Berridge offers fully certified testing on its own in-house air-driven test chamber facility.

Berridge Manufacturing Company is registered with the AIA Continuing Education System (AIA/CES) and is committed to developing quality learning activities in accordance with the CES criteria. Please call Berridge's Staff Architect at 800-669-0009 to schedule a seminar.
