

INTRODUCING

the **new**

GXT **EXTREMEAIR**[®]
hand dryer-

Dries
3X faster
than conventional
brands

American Dryer has been creating quality hand and hair dryers for over 55 years. Demand for our products has expanded to over 30 countries around the globe. Our success comes from a comprehensive product line designed to meet your particular needs and budget.

Quality & Service

Our maintenance-free hand dryers provide years of trouble-free service. Hand dryers come with up to a 10-year limited warranty. All hand dryers are made in the U.S.A. Most orders ship the same day.

Save 95% Versus Paper Towels

Hand dryers achieve up to a 95% cost savings over paper towels. These savings are realized by eliminating the maintenance and operating expenses associated with paper or linen towels. **The *EXTREMEAIR* costs about \$0.40 per 1,000 hand dryings to operate!**

“Our school saved over \$21,000 last year with American Dryer!”

Cost Analysis for a Public School:	
Paper Towel Usage	800 cases
Total Paper Costs	\$ 24,000
Hand Dryer Operating Costs	\$ 2,453
Annual Savings	\$ 21,547
Payback Time	14 months

Cost Analysis for a Restaurant:	
Paper Towel Usage	90 cases
Total Paper Costs	\$ 2,025
Hand Dryer Operating Costs	\$ 96
Annual Savings	\$ 1,929
Payback Time	12 months

Improve Hygiene

Most experts agree that warm-air hand dryers are the most sanitary method of hand drying.

Eliminate paper towel mess

No empty towel dispensers

Maintenance free

Protect the Environment

Paper towels cannot be recycled, consume precious resources, and use excessive landfill space.

To make one ton of virgin paper towels:

20,000 gallons of water are polluted

17 trees are consumed

384 gallons of oil are used

EXTREMEAIR® Hand Dryer

With its patent-pending technology, the *EXTREMEAIR* is **3X faster - it dries hands completely in 10-15 seconds**. This is accomplished with a powerful blast of warm air that quickly breaks up the layer of surface water on a user's hands for quick removal and evaporation.

While all American hand dryers save trees and reduce landfill waste - **The *EXTREMEAIR* uses up to 80% less energy than conventional hand dryers.**

The new GXT *EXTREMEAIR* hand dryer has been GreenSpec® Listed. This is an unbiased list of the most environmentally friendly products published by the editors of Environmental Building News. The *EXTREMEAIR* met tough GreenSpec standards because it conserves energy and reduces maintenance and waste.

The *EXTREMEAIR* helps facilities qualify for LEED® credits. LEED stands for Leadership in Energy and Environmental Design. The *EXTREMEAIR* helps facilities qualify for LEED-NC, LEED-EB AND LEED-CI Credits in two categories:

- **EA Credit 1 – Optimize Energy Performance**
- **EA Prerequisite 2 – Minimum Energy Performance**

best PERFORMANCE

GXT **EXTREMEAIR**[®] hand dryer
dries hands completely
in **10-15 seconds**

That's **3X faster** than conventional dryers!

This is accomplished with a powerful blast of warm air that quickly breaks up the layer of surface water on a user's hands for quick removal and evaporation.

While all American hand dryers save trees and reduce landfill waste –
the EXTREMEAIR uses up to 80% less energy than conventional hand dryers.

EXTREMEAIR Model GXT6 with High Impact ABS Cover Supporting an F-150 Truck

Virtually Indestructible

GENERAL INFORMATION

DRYER PLACEMENT:

Dryers should be placed at least 2 feet apart and at least 12" from washbasin. Do not install dryer over washbasin. Automatic dryers should be at least 18" above any projection which may interfere with the operation of the automatic sensor.

DRYER INSTALLATION:

Hand dryers require a dedicated circuit (max. 20 amp) and must be properly grounded. One side of dryer should be mounted to stud. All surface mount dryers are provided with conduit entrances for both between wall and surface wiring.

QUANTITY ESTIMATE, HAND DRYER:

Average traffic washroom.....1 dryer per 2 washbasins
Heavy traffic washroom.....1 dryer per washbasin
54" wash fountain.....4 dryers per sink
