LEED

How Does AGS, Inc. Help You Build a Green Building?

Breakthroughs in building science, technology and operations are available to designers, builders and owners who want to build green and maximize both economic and environmental performance.

Did you know?

According to the U.S. Department of Energy
In the United States, buildings account for:

- 37% of total energy use/68% of electricity consumption
- 30% of greenhouse gas emissions
- 30% of raw materials use
- 30% of waste output/136 million tons annually
- 12% of potable water consumption
